

UPCOMING FINAL MATH 239

Saturday, April 13th, 2013, 12:30PM-3:00PM, PAC.

The exam will be closed books, no calculators will be allowed.

Assignment 11 has been posted. It is a practice assignment and it will not be graded. However, we expect you to know the material on that assignment for the final exam. Solutions to that assignment will be posted on Monday the 8th of April.

The exam will cover all the material covered in assignments 1 through 11. As well as all the material covered in class. This includes the following material from the notes:

- 1.1-1.6
- 2.1, 2.3-2.8
- 3.1-3.4
- 4.1-4.4,4.6,4.8,4.9
- 5.1-5.3
- 7.1-7.8
- 8.1-8.4, 8.6

This corresponds to what was planned on the syllabus with the exception of breath-first search that we did not cover. Graph theory will account for about two thirds of the points of the final exam. Many of the questions in the final will be of a type similar to assignment questions. We have posted on D2L a sample final. We will not post solutions (but feel free to ask during office hours/tutorials).

Help will be available for the week of April 8th-13th as follows:

Time	Monday	Tuesday	Wednesday	Thursday	Friday
9-10				Tutorial center	Tutorial center
10-11				Tutorial center	Tutorial center
11-12				Tutorial center	Tutorial center
12-1					
1-2					
2-3		Katz, MC 4036			Tutorial center
3-4	Haxell, MC 4034	Katz, MC 4036	Haxell, MC 4034	Guenin, MC 4031 ¹	Tutorial center
4-5				Guenin, MC 4031	Tutorial center

¹Guenin's office hours will start a few minutes late as he has to proctor an exam until 3pm.
